

Cases	Vehicle information	Vehicle management	Service plan	Favorites	Workshop supplies/operating fluids	Measuring technique
Repair/maintenance	Troubleshooting	Service functions	Software update	Control unit exchange	Vehicle modification	
Fault memory	Fault pattern	Function structure	Component structure	Text search	Enter SAE fault code	
Code	Description			Odometer read	Present	Class
S 0261	No communication possible with: Camera-based driver assist system			10863	Yes	
800BB6	Remote controlled parking assistant: Problem with the driving position			3250	No	Information
800BC9	Remote controlled parking assistant: Problem with the driving dynamics			3250	No	Information
S 0293	No communication possible with: Power Control Unit			10863	Yes	
S 0394	No communication possible with: Telematics control module			10863	Yes	

Number of fault memories: 5 / 5 Number of fault patterns: 0 Filter: Standard

FC 800BB6

FC 800BC9

Ambient conditions of the fault memory

Condition	First entry	Last/Current entry
Frequency	1	1
Information entry (1: Yes, 0: No)	1	1
Kilometer reading	3250 km	3250 km
SAE fault code	--	--
Time stamp	114000 s	114000 s

Condition	First entry	Last/Current entry
Frequency	1	1
Information entry (1: Yes, 0: No)	1	1
Kilometer reading	3250 km	3250 km
SAE fault code	--	--
Time stamp	114000 s	114000 s
